

Pathological physiology I
2nd year, general medicine
Program of practical exercises

Summer semester 2021/2022

Department of Pathophysiology, UNIMEC

Week	Topic
1	Introduction. Principles of experimental work
2	Statistics
3	Pathophysiology of injections and anaesthesia
4	Pathophysiological aspect of wound treatment
5	A: Pathophysiological aspect of wound treatment
6	B: Electric properties of tissues, electric current effects
7	C1: Haemorrhagic diatheses, Rumpel-Leede test
8	C2: Anaemia, acid base balance
9	ECG 1
10	ECG 2
11	ECG 3
12	Pathophysiology of water and mineral metabolism
13	Repetition
14	Substitution, credit
